Kitchen Hazards (Key)

Identify the five (5) most common kitchen hazards and how to prevent them.

**Burns**
Keep kitchen clean

**Poisoning**
Store all household chemicals away from food and out of children's reach

**Cuts**
Handle and wash knives, graters, and other sharp-edged tools carefully

**Falls**
Remove hazards that could cause slips and trips

**Electrical Shocks**
Handle cords, appliances, and chemicals safely

What other hazards could cause accidents in the kitchen?
