Education and Training

Planning, managing and providing education and training services and related learning support services
Begin by discussing goals with your students. Explain to them that goals are something they have to work for but should be clear ideas, plans or purposes. It is their dreams – a vision they have of themselves in the future.

Short term goals can be achieved quickly like writing an essay for class, cleaning their room or reading a book. You feel good when these things are accomplished.

Long term goals take planning and commitment and can be divided into a series of smaller goals. Achieving a high score on the SAT, being accepted into the college of their choice, graduating from college and beginning their dream career are examples.

Ask your students for more examples. Allow students to commence working on graphic organizer.
Distribute handout **Personal Goals**. Allow students time to reflect on the career goals they are interested in.
**AchieveTexas College and Career Initiative** is an education initiative designed to prepare students for a lifetime of success. It allows students to achieve excellence by preparing them for secondary and postsecondary opportunities, career preparation and advancement, meaningful work, and active citizenship.

**AchieveTexas** is designed to help students (and their parents) make wise education choices. It is based on the belief that the curricula of the 21st century should combine rigorous academics with relevant career education. When schools integrate academic and technical education, students can see the “usefulness” of what they are learning. The system also facilitates a seamless transition from secondary to postsecondary opportunities.
The POS represent a **recommended** sequence of coursework based on a student’s interest and career goal. POS contain lots of helpful information, including the core courses and career-related electives in high school that will help prepare students for their career goals. The POS are based upon the Recommended High School Graduation Plan and can easily be adapted for the Distinguished Achievement High School Graduation Plan. There are 3 Programs of Study and 5 Models for the Education and Training Career Cluster.

All schools are different and may choose to follow other Programs of Study. Be sure to tell students what your school has to offer.
Teaching and Training

Corporate Trainer
Early Childhood Educator
Teacher

See Programs of Study Models for Corporate Trainer, Early Childhood Educator and Teacher in the all Lesson Attachment tab to follow along with the slide presentation. The slides include information from the three models in alphabetical order.
High School

Career Related Electives

• 9th – Principles of Education and Training
• 10th – Human Growth and Development or Interpersonal Studies or Human Resources Management
• 11th – Instructional Practices in Education and Training or Business Management
• 12th – Practicum in Education and Training or Practicum in Human Services or Entrepreneurship

*Note: Sequence of courses in your school may differ from the recommended sequence of coursework.

These are recommended sequence of courses but ____________ (name of your school) offers ____________________.
Discuss employment opportunities in your town or city. Remind students that many careers begin at the bottom.
Education never ends. Students should be aware that earning certifications will help their careers as they move up the ladder of success.
Associate Degrees are generally two year programs at a community college.
Bachelor Degrees are generally four year programs that will assist the student as they continue in their careers.
### Graduate Degrees

- Administration Child Development
- Bilingual Education
- Curriculum and Instruction
- Development and Adult Education
- Early Childhood Education
- Education Instructional Technology
- Educational Administration
- Educational Psychology
- Elementary Education
- Higher Education
- Human Development and Family Studies
- Human Resources Development
- Management and Technical Education
- Organizational Behavior
- Secondary Education
- Special Education
- Training and Development

### Career Options:

- Adult Educator
- Child Care Director/Owner
- Cooperative Extension Director
- Corporate Trainer
- Education Administrator
- Educational Consultant
- Elementary Teacher
- Human Resources Director
- Secondary Teacher
- Special Education Specialist
- Training and Development Manager
- University Instructor/Professor

Management Careers are at the top of the ladder of success.

Graduate degree programs generally include an internship in the student’s field of study.

Internships give students on-the-job training and experience in that chosen career.
See Programs of Study Models for Education Counselor in the all Lesson Attachment tab to follow along with the slide presentation. The slides include information from the model in alphabetical order.

Graduate Degrees

- Administration/Principal
- Adult, Professional, and Community Education
- Curriculum and Instruction
- Educational Administration
- Educational Leadership
- Elementary Education
- Higher Education Research
- Secondary Education

Career Options:

- College President, Dean
- Educational Researcher
- Principal/Superintendent
- Supervisor and Instruction Coordinator
- University Instructor or Professor

Management Careers are at the top of the ladder of success.
The ability to communicate clearly and positively is one of the most important skills in work and life.

**Verbal** means using words in language and word choice.

**Nonverbal** means without words includes body language, facial expressions, posture, hand gestures and tone of voice.

**Listening** is an active process and you must pay attention when you listen to someone. **Speaking** occurs whenever you say something and includes the word you choose, your posture, and your tone of voice.

**Reading** is an important way to learn new information such as the employee handbook, guidelines, checklists, and information on a computer screen.

**Writing** includes using a keyboard on a computer to enter information, reports, and ordering supplies.

Basic **arithmetic and mathematics** needed to use a calculator and computer.

**Electronic communication** includes computers, cell phones, two-way radios, pagers, and hand-held computers (tablets). Wireless devices and e-mail are also necessary to fulfill many requirements.
