Restaurant Elements Project

Design and create a restaurant eating area for a boardwalk vendor, chain restaurant, cruise ship or a five-star restaurant in a shoebox. Use recycled items that can be found in the classroom or at home to complete your design.

Supplies needed:

- Butcher paper
- Construction paper
- Fabric scraps
- Glue
- Magazines (various)
- Markers
- Scissors
- Scotch tape
- Shoeboxes (empty)

Incorporate the elements in your design:

- Ambiance
- Décor
- Location
- Service style
- Target market
- Theme

Steps:

1. Complete the Restaurant Elements Plan handout and be prepared to share your ideas.
2. Select a catchy name and display it where it is visible.
3. Decorate the inside of the box using construction paper, scraps of fabric or magazine pictures.
4. Create booths or tables with chairs (one to three).
5. Add embellishments to make the dining area fit the elements chosen.
