25 Extended Thinking Assessment Questions/Tasks

1. We discussed that friends and surrounding environments can impact a person's taste in attire, music, style of speaking and choice of social activities. Discuss other areas that might be influenced by a person's friends and environment.

2. Analyze how the relationships with others, specifically the family, would affect a person's self-concept.

3. You are the parent of an adolescent. Propose strategies for ensuring that your child is developing properly physically, emotionally, intellectually and socially.

4. Apply the first four steps in decision-making to the following scenario: You are a senior in high school and must decide your short-term and long-term goals.

5. Adolescents are not as likely to hold full-time jobs today as their counterparts of the nineteenth century were. Besides full-time work, what is needed to achieve independence from the nuclear family?

6. To live successfully away from the family, one must achieve financial and emotional independence. Explain how these things contribute to independent living.

7. Your family has always been close and nurturing, with almost constant communication. Your friend's family is more aloof and independent from one another, rarely communicating. How might each of these models affect a person's ability to develop healthy relationships with others?

8. Today's family formation is different from the formation of families in past years. Compare and contrast American family formation in the past to those families we see today.

9. Select one of the following qualities: loyalty, trustworthiness, common interest or support. Explain how this quality supports building a positive friendship.

10. Give three examples of loyalty between friends and explain why each of these examples are important.

11. How do peers contribute to self-esteem?

12. You have found someone that you are truly interested in and you would like to begin dating. However, this person's values, beliefs and activities vary drastically from yours. Discuss the pros and cons of moving forward with dating this person.

13. Good listening is fundamental to a satisfying relationship. Discuss two examples of effective communication, critiquing the examples and citing similarities and differences.

14. Critique the changes in traditional roles in the American family. How have these changes impacted family life?

15. Provide examples of how family structure affects the relationship between parents and children?
16. List some of the changes that the influx of families in Texas has created in our society. How has this impacted daily living in Texas?

17. Describe why, in a time of high unemployment, it would make sense that the research shows that fathers are spending more time with their children.

18. Describe the stages of the family life cycle. How do they connect and/or overlap?

19. How might advances in technology affect the family of the future? Consider communication, everyday life functions, health care, work and other aspects of family life.

20. Certain laws impact families. Choose one of the following and explain how it relates to and impacts families: foster care laws, Affordable Health Care Act or laws regarding abuse and neglect of children or the elderly.

21. Stress, in small quantities, can be beneficial. Analyze how some stress in your life can be motivational and help you be more productive.

22. You are faced with a stressful situation. What steps might you take to reduce effects of the stress? Describe the physical and emotional aspects of overcoming this situation.

23. Show the connection between your cultural background and the way you communicate with people from other cultural backgrounds.

24. Scenario: Two colleagues cannot seem to get along. They constantly bicker and argue, sometimes in front of clients. As a team leader, how would you work with them to create a harmonious and effective workplace?

25. Steve has always wanted to be a pharmacist. Susan has chosen to be an art historian. Mario is going to law school. How will each of these career choices impact their family lives financially, socially, physically and emotionally?

25 Extended Thinking Assessment Key

1 - 25 Student responses will vary
